**Final Project Proposal Form (PYTHON)**

Developers.Institute
Intense, career-oriented courses

Fill the Student Section, **Save** the form and send your completed form to your instructor(s).

---

**Student Section**

**Project Title** *

**Student** *

First Name     Last Name

**Project Description and Justification** *

**Planning**

| | Task Description | Student :<br>Is the task done ? | Teacher:<br>Is the task fullfilled correctly ? |
|---|---|---|---|
| 1 | | | |
| 2 | | | |
| 3 | | | |
| 4 | | | |
| 5 | | | |
| 6 | | | |
| 7 | | | |
| 8 | | | |
| 9 | | | |

**Minimum Viable Product Features**          **Additional Features**

1                                            1

2                                            2

3                                            3

4                                            4

5                                            5

**Tools and Frameworks to be included: ***          **Deployment Platform used: ***

                **Yes    No    Maybe**

**HTML & CSS**

**Javascript**          **Link GitHub Repository : ***

**Flask**

**Database**          **I have read and understod the online instructions for the Final Project ***

**Third Party API**

**Data visualization**

**List Other Tools**          **Link Deployed Project : ***
